

Building a culture of collaboration

The MAC is located in Taylor Hall (UC B001) and available for all students taking a mathematics course as second access to content. First access is in lecture and office hours with professors, second access offers peer tutoring and mentoring from fellow students who have taken the course before. Assistance with online homework and software projects is available as well.

The MAC STAT is located in the University Library (UL 2135D) and caters specifically to second access to statistics content. It's the MAC as you know it, just for statistics. The space is also equipped with several computer workstations for online homework and various statistical software projects.

The MAC and MAC Stat are not only for getting assistance on assignments, preparing for exams, and working with peer tutors,

but also for collaboration with other students in a casual atmosphere. No appointment is necessary for visiting. Drop in anytime during the open hours to work with a peer tutor or mentor. Our more than 120 tutors and mentors are trained to guide you through the coursework in classes that they themselves took.

The mathematical sciences faculty of IUPUI, in collaboration with the employees of the MAC and MAC Stat, worked to create resources to assist students in their courses. These include instructive shorts, class hand-outs, formula sheets, study guides, practice examinations (and their answer keys), all of which are designed to prepare students for success in their classes.

These resources can be downloaded for free from the MAC website: mac.iupui.edu/resources.

Exam Jam

The MAC offers late night Exam Jams during the last two weeks of the semester to get some studying done before finals. The locations for the courses are below. More information about Exam Jam can be found on the MAC website.

Class	Location
15300	MAC
15400	UC2137
15900	UC2118
16500	MAC
16600	UC2127
17100	UC2135
22100	MAC
22200	UC2127
23100	MAC
M118	UC104
M119	MAC
11000	MAC
11100	UC104
STAT	LE100
30100	
STAT	MAC
35000	STAT

The probability of success (getting a C or better)
